

RSF-INSF Cooperation: Possibility for Joint Russian-Iranian Project Proposals

2024-2026 Joint Project Description Template

A complete proposal in this competition consists of the joint project description (following this document) and the specific documents, necessary for both funding organizations respectively (for Iranian Scientists – following the INSF rules, for Russian scientists – following the RSF competition documentation).

The proposal must be written in English. There is a strict limit of 15 pages for the joint project description (font size: 11 or 12, line spacing: 1.15). Applicants are obliged to ensure that the project description contains sufficient information for evaluation.

Contact telephone number and E-Mail address:

Name and affiliation of the Russian Principal Investigator

Name (including Patronymic name), title:

Host institution:

Contact telephone number and E-Mail address:

Key words:

Project Summary:

(up to 3.000 characters)

Project Description

State of the art and preliminary work

Please explain briefly and precisely the state of the art in your field in its direct relationship to your project. This description should make clear in which context you situate your own research and in what areas you intend to make unique, innovative, promising contribution. This description must be concise and understandable without referring to additional literature.

To illustrate and enhance your presentation you may refer to your own and other's publications. Indicate whenever you are referring to other researchers' work. Please list up to 10 important publications in your bibliography under section. Note that reviewers are not required to read any of the works you cite.

Project-related publications

Please list your and your partners' significant publications that relate directly to the proposed project and document your preliminary work. This list should contain no more than 10 publications.

Objectives and expected outcomes

Please give a concise description of your project's research programme and scientific objectives. Please indicate outcomes expected to be achieved through this project, including, but not limited to, peer reviewed publications. Please indicate if you anticipate results that may be relevant to fields other than science (such as science policy, technology, the economy or society).

Intellectual Property

Please indicate any agreements between the project partners regarding the intellectual property of the outcomes resulted from the project.

Work programme including proposed research methods

Please give a detailed account of the steps planned during the proposed funding period including a description of the contributions to be made by the project partners from both countries. For experimental projects, a schedule detailing all planned experiments should be provided.

The quality of the work programme is critical to the success of a funding proposal. The work programme should clearly state how much funding will be requested on both sides, why the funds are needed, and how they will be used, providing details on individual items where applicable. Please provide a detailed description of the methods that you plan to use in the project: What methods are already available? What methods need to be developed? What assistance is needed from outside your own group/institute?

Data handling

Improving the management and handling of research data is a priority both for national and international research organisations and for science in general. If research data or information will be systematically produced in the project, describe if and how these will be made available for future reuse by other researchers. Please regard existing standards and data repositories or archives in your discipline where appropriate.

Research Ethics

Please, if applicable, indicate measures which will be taken to address ethical concerns that may rise for your research.

Added value of international cooperation

The cooperation among the partners involved and the expected added value of the planned cooperation should be described in detail.

Requested modules / funds

Iranian project part – Funds requested (in RIs)

Russian project part – funds requested (in RUB)

Project requirements**Composition of the project group:**

List those individuals who will work on the project.

State each person's name (if known), academic title and employment status.

Researchers in Iranian Research Team

Name	Organization (if applicable)	Specialty	Detailed Description of Role in the Project
(PI)			
(Co-Investigators)			

Researchers in Russian Research Team

Name	Organization (if applicable)	Specialty	Detailed Description of Role in the Project
(PI)			
(Co-Investigators)			

State each person's name (if known), academic title and employment status.

Additional information (if applicable)

Signatures

To make sure the content is identical for both sides, please include the signatures of both Principal Investigators.

Signature of the Russian Principal Investigator:

**Signature of the Iranian Principal
Investigator:** _____
